

I want to continue receiving K-LOVE on my local FM radio dial. My daughter and I listen to it every day on the way to and from school. My husband comes in singing the latest song he's heard on K-LOVE. It provides a positive, encouraging word for our family to enjoy. I value their family-friendly programming; knowing that, as a parent, I won't have to change the station because of any unwholesome talk. My network of church friends would also be devastated by the loss of K-LOVE. We speak often in Sunday School and at fellowships about what we hear on K-LOVE and encourage one another through those messages. Please consider the families, like mine, who regularly listen to K-LOVE through FM translators and do not want to have that taken away.
